Duo Stack

Cookie Policy

Last updated: 26 November 2026

This policy explains how Burrow Stack Limited, trading as DuoStack ("we", "us") uses cookies and similar technologies on our website. It should be read alongside our Privacy Policy.

What are cookies?

Cookies are small text files that a website saves on your device when you visit. They let the site remember things about your visit, and they help us understand how people use our site and find us.

Some cookies are set by us ("first-party cookies"). Others are set by other companies whose services we use on our site ("third-party cookies"). This policy also covers similar technologies, such as tracking pixels and local storage, that work in the same way. We call all of these "cookies" in this policy.

Your choices

When you first visit our site, we ask whether you're happy for us to use cookies that aren't strictly necessary. We won't set any of these cookies unless you agree. You can accept all of them, reject all of them, or choose by category.

You can change your mind at any time by clicking **"Cookie settings"** at the bottom of any page. If you withdraw your consent, we'll stop setting those cookies from then on. Some cookies may already be on your device, and you can delete them through your browser (see below).

Rejecting cookies won't stop you from using our site. Some features that rely on other services, such as embedded content, may not load. If that happens, we'll give you another way to reach the same thing where we can.

The types of cookies we use

Strictly necessary

These cookies are needed for the site to work securely and properly, and to remember your cookie choices. They can't be switched off, so we don't ask for consent to use them.

Functional

These cookies let us offer features that rely on other services, such as embedded calendars, videos or maps, and remember your preferences.

Analytics

These cookies help us understand how visitors use our site, for example which pages they visit and how they found us, so that we can improve it. The information is collected in a form that doesn't directly identify you.

Marketing

These cookies help us measure whether our adverts lead to people getting in touch with us, and help advertising platforms show our adverts to people who may be interested. The companies that set them may use them to build a profile of your interests.

The cookies currently in use

Our site changes over time, so we keep the full, up-to-date list of the cookies we use in the **"Cookie settings"** panel at the bottom of every page. For each cookie, it shows the name, who sets it, what it's for and how long it lasts.

Third-party cookies

Third-party cookies are controlled by the companies that set them, and those companies use them under their own privacy policies. You'll find these companies in the "Cookie settings" panel. Some of them may move data outside the UK. Our Privacy Policy explains how we protect your data when that happens.

Controlling cookies in your browser

Most browsers let you see, block and delete cookies. If you block all cookies, some websites may not work properly. Your browser's help pages explain how:

- Google Chrome
- Safari
- Mozilla Firefox
- Microsoft Edge

You can also control how you're shown adverts in the settings of your accounts with advertising platforms, such as Google and Meta.

Changes to this policy

We'll update this policy if we start using cookies for new purposes. The "Last updated" date at the top shows when it last changed.

Contact us

If you have questions about this policy or how we use cookies, contact us:

- **Email:** contact@duostack.co.uk
- **Post:** Burrow Stack Limited, 46 Riverside Road, Norwich, Norfolk, NR1 1SR

Burrow Stack Limited is registered in England and Wales, company number 14658765.

If you're unhappy with how we've handled your data, you can complain to the Information Commissioner's Office (ICO) at ico.org.uk.
